## OBJECTIVE

Graduated from software engineering with 4+ years of experience in Mobile apps, 2+ years BackEnd systems, and 1+ year with FrontEnd WebApp clients. At the same time, I am in the process of learning and perfecting myself with the DevOps team and completing other certifications to improve myself. I am confident that I am completely reliable support for your projects.

## WORK EXPERIENCE

### RYOMO VIETNAM SOLUTIONS CO., LTD

9/2018

#### INTERNSHIP

**.NET Framework:** Analyze, research, and build sales management applications using *Windows Forms* and *WPF* with ADO.NET technology and the MVVM model.- Projects: HRM systems (Best internship of the team with 9/10)

### PIKA TECH & ANALYSTICS

July 2019 - April 2020

#### TEAM LEADER

**Fullstack** dev idea creation, analysis, construction, and implementation. Responsible for reporting product demos to project management.

- Projects:

1. **BIMOS**(Mobile, Backend) Smart Bus Direction is a mobile application that helps users find the location of bus stations in the surrounding area.
2. **Pika Lotus (ERP)** (Mobile, Backend) package including scanning product code, inventory, quality control, and human resource management. The Server-side is signed in Python with Flask Framework, Client-side is the Flutter application. This is one of the rare ERP packages that work on mobile devices.
3. **S4Life** (Mobile) is a community of voluntary blood donors to timely send messages calling for donations. S4Life is a mobile application that provides information about volunteer blood donation schedules in Ho Chi Minh City.
4. **Đại Hội** (Mobile, Backend) is an application for managing the congress programs used at the April 2020 conference in District 1, HCM City. Includes Party Committee management, attendance, document storage, and so on.
5. **PLRac** (Mobile) is an application with the original idea of connecting scrap buyers and sellers and modeling them on a map. Forming an environmental protection community.

### K-GROUP VIET NAM - FIONA OFFICE

6/2020

#### MOBILE, BA

**Catback** is an e-commerce exchange with the biggest refunds right now. The application was deployed on both IOS and Android phones. It's using PayMe for the purchase payment system, and some modules use GrabPay for it.

### VNPT

8/2020 - Now

#### SOFTWARE ENGINEER

Vietnam Posts and Telecommunications Group (Tập đoàn Bưu chính Viễn thông Việt Nam). I work as a software engineer at VNPT-IT Center 2 in HCMC.

- Build mobile apps made with Flutter
